

Infrared Butt Fusion SP110S.10S Welder

SIZES: 20 – 110mm (1-1/2" – 4")
IPS (1/2" – 2") PFA only

VOLTAGE: 220 VAC/1 Plug

The **SP110S.10S** is an automatic welding machine for heating element infrared welding of PE, PP, PVDF, ECTFE and PFA pipes and fittings from OD 20 to OD 110 mm and 1/2" to 2" IPS sizes. in the workshop or in the field. It has two large aluminum pipe clamps which accept reducers for different pipe sizes, as well as two narrow fitting clamps for fittings with short legs.

The electronically controlled infrared heating element with limit stops has a special ceramic coating and control lamps for system and interval checking. Temperature adjustment is carried out by means of a digital control unit with separate mains plug and switch. The electric planer and heater rest on precise 2-axis-guiding and are automatically slid out between the welding pieces from the protective cover when in use. A shipping crate serves for the transport and the protected storage of the complete SP110 welding kit.

features

- Ideal for PVDF, PP, UPP, PE, ECTFE and PFA butt fusion piping systems
- Fully automated welding process
- Electronic process control and data logging
- Large touch screen with selectable languages
